25

Taylor Daake, a resident of Saratoga Springs, shared concerns regarding new parking signage that restricted street parking on Chianti Street and Peony Drive and requested consideration of a temporary solution.

30

Eric Nilson, a member of the Utah Live Steamers Club, provided background information on the development and improvements of the Shay Park Railroad, expressed appreciation for community and corporate support, invited the Council to attend the club's annual meeting, and shared the club's interest in future park expansion and continued development at Shay Park.

35

Lacy and Amy Anderson, residents, expressed concerns about trash being blown into the public park and requested that trash cans be returned to the park near their home.

40

Bryce Anderson, resident, shared concerns about increased trash following the removal of trash cans at the park near his home and felt that the park's proximity to the community warranted their return.

Mayor Carn requested that Staff meet with the public to address the parking concerns.

REPORTS

1. **Mayor:** Mayor Carn reported that the Utah Lake Authority had received a \$7.7 million federal grant to support projects including lake access, carp/phragmites mitigation, and the upcoming nature center.
2. **City Council:** Councilmember Wilson stated that she was monitoring legislation affecting cities in the upcoming legislative session and noted that no relevant bills had passed yet.
3. **Administration:** City Manager Mark Christensen stated that the legislative session was about a third of the way complete, noted that many bills were still in flux, and explained that the City was proactively monitoring legislation to mitigate potential impacts.

50 City Engineer/Public Works Director Jeremy Lapin gave an overview of collector road restrictions, noting that there was no on-street parking allowed on collector roads. He explained that the signage was a clarification and not a newly implemented code change. He further discussed multi-family guest parking constraints and the need for consistency in how multi-family parking is addressed by the City.

55 Councilmember Taylor asked whether Peony was held to the same standards as Chianti Street and Peony Drive and whether, aside from site distance considerations related to access to Mountain View Corridor, parking could be allowed without designated parking spaces.

60 City Engineer/Public Works Director Jeremy Lapin explained that Peony does not have bike lanes and is not held to the same standard as Chianti. He said that although Peony originally had no striping, residents in the area had expressed concerns regarding safety and sight distance, which prompted the striping and did not leave room for on-street parking. He noted that while Peony was classified as a local road and would not typically be striped, it was treated as a hybrid due to it being one of the only access points from the Corridor.

65 Councilmember Taylor received clarification from Staff that the City does not typically paint red curb but uses signage in areas that would require it. He said he would like to see suggestions or recommendations for addressing the situation.

70 **4. Department Reports:** Police, Fire/EMS in the packet.

2. **Site plan for 2429 Stagecoach Drive. Travis Olsen, applicant.**

Planner II Kendal Black stated that the applicant, Travis Olson, was unable to attend but submitted a written statement thanking Staff and the Planning Commission. He summarized the project, noting it is regional commercial and that two compliance options were presented, both requiring a nine-space shared parking agreement, and highlighted challenges with interconnection to the north due to grade differences. Building elevations were shown.

125

Councilmember Wilson asked whether Option B provided more parking because it did not include the interconnection.

130

Planner II Kendal Black explained that Option B met code requirements but that the applicant was also requesting the shared parking agreement to provide additional flexibility.

135

140

Councilmember Davenport noted that she had recently attended another City Council Work Session where shared parking agreements were discussed. She commented that it was important to be mindful that parking utilization can change over time as businesses within a facility change.

145

Councilmember Taylor asked whether the shared parking agreement would remain in perpetuity, whether it would be filed or recorded, or if it was solely a civil agreement between the two property owners.

Staff confirmed that the shared parking agreement would be a renewable agreement between the two property owners, recorded with the County, and would include an expiration date agreed upon by the owners. Staff also clarified that Planning verifies sufficient parking whenever a new business applies for a business license.

150

Councilmember Taylor confirmed with Staff that, if the shared parking agreement were rescinded, the site would still have sufficient parking.

155

City Attorney Kevin Thurman clarified that the agreement has a 15-year term and suggested that the agreement could include an amendment with an automatic extension and be cancelable with 90 days' notice, noting that a 15-year term might expire without parties remembering to renew.

160

Councilmember Wadman received clarification that the grading and stormwater drainage comply with requirements and that the shared parking agreement would be between the property owners, with the owners responsible for notifying tenants.

Councilmember Wilson expressed concern that the project appeared to represent a major traffic increase and asked if the City was prepared for it. She also stated that she wanted to ensure drive-thrus were not located adjacent to residential areas.

165

Motion made by Councilmember Wilson to approve the Site Plan for 2429 Stagecoach Drive. Travis Olsen as applicant, with all Staff Findings and Conditions, the requested shared parking agreement is approved with the amendment that it will auto-renew, the interconnection (to the north) is not required, and the site plan is approved subject to Option B as outlined in section F of the Staff Report. Seconded by Councilmember Wadman.

3. Consideration for Revocation or Extension of the Canyon Hollow Development Agreement.

Located at 1498 N. Summer Village Rd. Jason Scarbrough as applicant.

185

Planner II Kendall Black presented the item and stated that the Development Agreement (DA) for the Canyon Hollow Development was entered into on March 15, 2022, and recorded with the County on March 16, 2022. The DA rezoned the property from Agricultural to MF-10 and included a Concept Plan. He noted that no development had occurred and that, under the terms of the DA, the property would revert to Agricultural zoning if development did not begin within two years.

190

The applicant, Jason Scarbrough, was present. He thanked the Council for their time and affirmed his commitment to moving forward with the project if allowed. He confirmed an estimated start of Spring 2026.

Councilmember Wilson asked whether an amendment to the Development Agreement was possible at this time.

195

City Attorney Kevin Thurman explained that the Development Agreement was considered terminated under its original terms. He stated that the Council could choose to extend it and could discuss additional requirements in the DA as part of that action.

200

Councilmember Wilson noted that the state strongly supports affordable housing and that the 13 townhomes were next to other townhomes, making the proposed use appropriate. She asked whether the applicant planned to sell them to homeowners or retain them as rentals.

205

The applicant mentioned that they preferred to sell the homes once built but said that they may need to rent some units depending on market conditions.

210

Councilmember Wilson expressed a preference for the units to be owner-occupied, proposing a 12-month owner-occupancy clause. She expressed that the intent would not be to create a burden for the owner but that it could be helpful for residents.

215

City Attorney Kevin Thurman said that if the Council wanted to pursue an owner-occupancy clause, it could be discussed with the property owner, and that, as noted in the staff report, one of the pros for extending the DA was to address housing.

Mayor Carn asked the other Council members for their input.

Councilmember Taylor supported encouraging owner-occupancy but did not want to restrict the developer from renting units if they did not sell, noting that the homes should not be sold as investment properties.

220

City Manager Mark Christensen clarified that the DA could include a provision requiring homes to be owner-occupied for one year upon sale, while allowing the developer flexibility to rent units they still owned, and asked if this would meet the Council's objectives.

The applicant expressed his agreement.

225

Motion made by Councilmember Taylor to approve the requested Development Agreement Extension for the Canyon Hollow Development located at 1498 North Summer Village Drive and restart the two-year timeframe to begin development, with the updated DA returning to City Council at a future meeting. Seconded by Councilmember Wilson.

4. **Drinking Water and Pressurized Irrigation Systems Masterplan Update. Resolution R26-08 (02-03-26).**

City Engineer and Public Works Director Jeremy Lapin introduced the item. He highlighted past accomplishments, including implementation of a pressurized irrigation system with metering, securing a diversified water supply from Central Utah and local sources, and expanding surface water use. He noted that the City currently uses less than half of its available water resources, has a robust system to handle peak demand, and recently completed a new pump station to improve redundancy and distribution. He emphasized that the master plans provide important guidance for staff, ensure adequate infrastructure for future development, and support water conservation efforts, particularly in drought years.

250

City Manager Mark Christensen explained that the City has been acquiring high-priority water rights to ensure reliable water use and maintain a diverse portfolio, in addition to existing Central Utah water contracts. He noted that additional secondary water purchases were planned and that infrastructure improvements would continue to be phased in with development. He emphasized that the City has proactively planned for growth and that claims of insufficient water were inaccurate.

255

The Council thanked Jeremy Lapin and Staff for their efforts.

260

Councilmember Davenport highlighted that the water master plan demonstrates long-term planning for a 40-year buildout and ensures that the City will have adequate water infrastructure for the future. She added that the plan also highlights the importance of individual conservation efforts, particularly during a tight water year.

265

Staff Report - Meeting

Author: Rulon Hopkins, Assistant City Attorney
Department: Legal, Code Enforcement
Subject: Title 20 & Administrative Code Enforcement ("ACE")
Manual – Administrative Code Enforcement Update
Date: 2/9/2026
Type of Item: Legislative

Introduction:

The proposed changes are minor updates to procedures that have been discussed with legal, code enforcement, and the administrative court team. These changes are intended to help the process operate more smoothly for both the parties involved and the efficient use of staff time.

Background:

Title 20 of the City Code was originally adopted in 2009 and last updated in 2014. The code and the administrative court were established to allow the City to address code violations without the need to utilize the justice court. This approach significantly improved efficiency and eliminated the risk of creating a criminal record for these matters.

The administrative court is a civil administrative body that reviews code enforcement, animal control, and parking violations for the City. While the code complies with all applicable state law requirements, staff has identified areas for improvement to further enhance the efficiency and effectiveness of the process.

This update designates the City Manager or Assistant City Manager as the Ordinance Enforcement Administrator, unless otherwise designated. The inspection authority language has been clarified to reflect current constitutional requirements. Reinspection fees are made permissive and may be imposed on repeat offenders who misuse city resources. Fee reductions are allowed for vehicles that obtain proof of registration. The requirement to record a lien against the property is changed from mandatory to permissive.

Budget Impact:

Recommendation:

Staff recommends that the City Council review and approve the proposed changes to Title 20 of the City Code and the ACE Manual.

If the RP fails to appear at the default hearing after notice has been given according to the above guidelines, the judge will issue a Default Judgment which is outlined in the notice of hearing that was sent to the RP and an Affidavit of Non-Compliance is sent and recorded with the County Recorder's Office.

City Council Staff Report

Subject: Saratoga Road and Pony Express Widening project

Date: February 17,

Type of Item: Resolution

Description: Award of CM Contract

A. Topic:

This item is for the approval of a contract for Construction Management, Inspection, and Materials Testing services for the Saratoga Road and Pony Express Widening project.

B. Background:

The City of Saratoga Springs is nearing completion on the design of the Saratoga Road and Pony Express Widening project which consists of Widening to 5 lanes both Saratoga Road (from Pony Express Parkway to Pioneer Crossing – a distance of approximately 0.8 miles) and Pony Express Parkway (from Saratoga Road to 100 West – a distance of approximately 1.1 miles) and needs to hire a firm to provide Construction Management, Inspection, and Materials Testing services for construction phase of the project.

C. Analysis:

The city solicited proposals from pre-qualified firms for the project. The review committee reviewed the proposals and determined that (FIRM) was the best proposal. All proposals met the scope requirements of the RFP however; it was the price proposal from (FIRMA) as well as their comprehensive proposal which became the determining factor.

D. Fiscal Impact:

The funding for this project was allocated with the FY2025-26 fiscal year budget but in GL 33-4000-764. No budget amendment is expected to be needed to cover the proposed contract.

E. Recommendation

Staff hereby recommends that the City Council approve awarding the contract for Construction Management, Inspection, and Materials Testing services to (FIRM) for the Saratoga Road and Pony Express Widening project.

City Council Memorandum

From: Joel Temple, Planner I
Memo Date: February 11, 2026
Meeting Date: February 17, 2026
RE: Trails Master Plan

Background

The Parks, Recreation, Trails, and Open Space Master Plan was adopted May 5, 2020. The City has since installed a number of the proposed facilities. Staff have updated “Chapter 4: Trails” in this document to reflect updated maps and figures with facilities that have been built as well as additional proposed trail facilities and will be processing an amendment to tide us over until we can revamp the entire document. Among the proposed additions are two grade-separated crossings along the Jordan River Trail. In order to be eligible for MAG funding, these projects must be included in a City-approved Master Plan. Staff seeks council’s guidance on the inclusion of these projects in the updated Plan.

Planning Overview

The first grade-separated crossing is a part of the Pony Express widening project. It would allow for a trail crossing under the expanded bridge to allow for seamless, safe travel near the intersection of Saratoga Road and Pony Express Parkway.

The second grade-separated crossing seeks to integrate our city’s multimodal network with that of Lehi’s. Lehi has a separated bicycle facility on 700 South that approaches the Jordan River Trail (JRT) on the east side of the river. Our own adopted plans show a trail corridor on the west side of the Jordan River that parallels the existing JRT. With the flex-lane project on Pioneer Crossing, active transportation facilities are being permanently removed. This project would help to fill that gap and would provide a crucial east-west connection that integrates with our future Downtown and Lehi’s existing bicycle facilities.

Recommendation

Staff recommends that the City Council review and choose from the following two options:

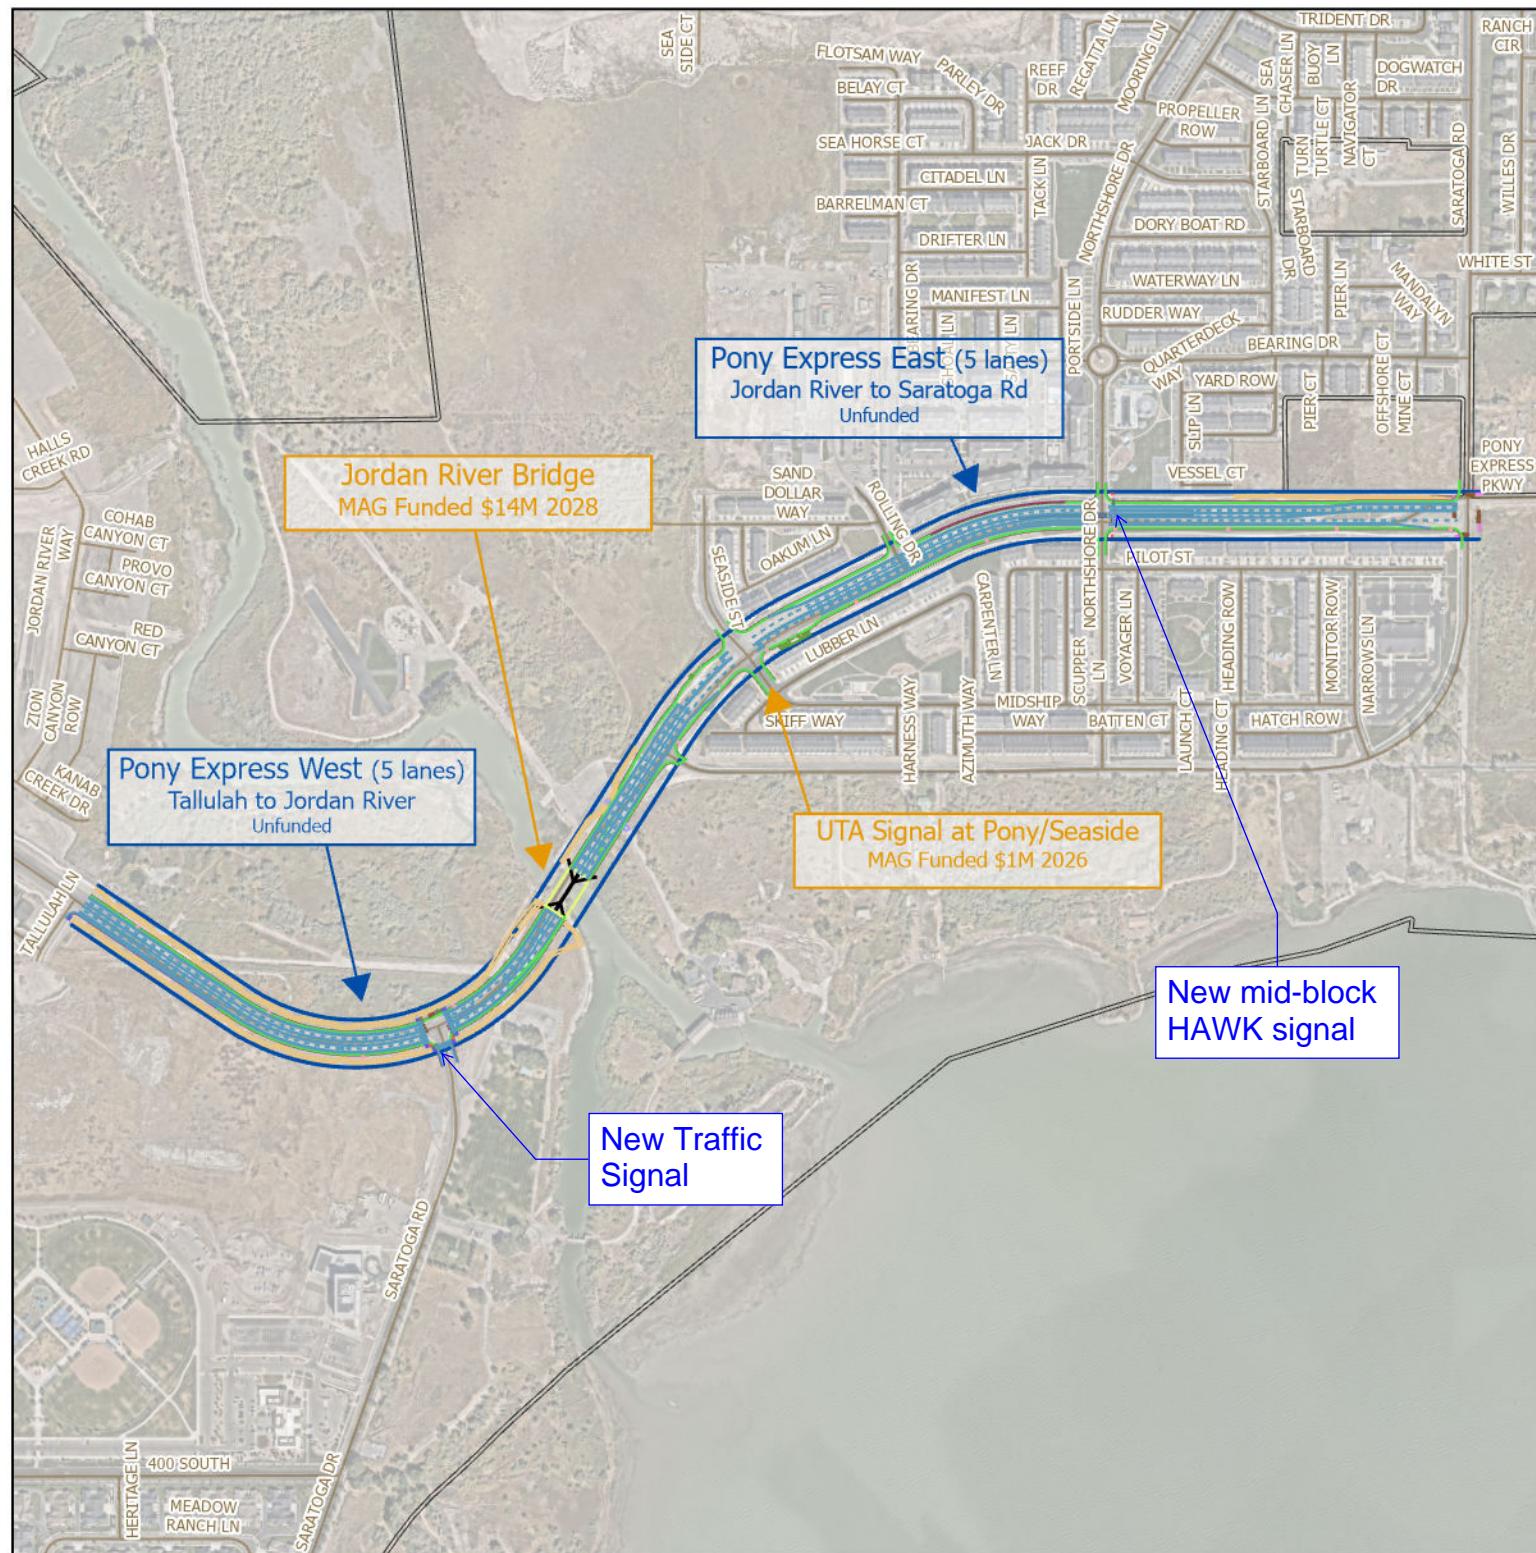

- Review the proposed projects for their inclusion in the Trails Master Plan update.
- Reject the inclusion of one or both projects in the Trails Master Plan update.
