## WATER USAGE CUSTOMER PORTAL

The water usage portal is here! The city is pleased to announce that we have a new water usage customer portal for citizens to be able to see their water usage in real time.

With the new portal citizens will be able to sign in and view their water usage at anytime. This will help citizens know their monthly usage and identify potential leaks in their culinary and secondary systems at their home.

We are excited to offer citizens the chance to be able to monitor their water usage on a day to day basis.

To take advantage of this system you will need an authentication code located on your bill, along with your account number to register. You can register by going to [www.saratogaspingscity.com/mywateruse](http://www.saratogaspingscity.com/mywateruse)

### Library Holiday Activities

Special story times and family craft nights for your family to enjoy. For more information visit [www.saratogaspringscity.com/libraryevents](http://www.saratogaspringscity.com/libraryevents)

## Emergency Tip #2: Kits

By: Jess Campbell, Fire Chief

We hope all your fall plans are underway and preparing for the winter months. As the days get shorter, this is a great time of year to work on projects inside the home regarding Preparedness.

This is #2 of 12 installments that will be recurring each month. October of each year will be "Do you have an emergency plan". In keeping with that, each November will be "Get an Emergency Kit". So where does one begin?

Assemble and maintain a portable 72-hour emergency kit containing items designed to support each individual with vital health & personal items for two or three days away from home. Of the most likely responses to a wide range of emergencies, the possibility of evacuation should drive this effort.

Keep your personal kit simple, light in weight, and easy to update according to seasonal and other variables. Any of a long

list of possible carrying options may prove practical, including a compact backpack, which leaves hands free.

Of primary importance is a flashlight and battery radio together with fresh backup-up batteries for each.

Other important items often overlooked might include essential

device to help transport heavy items such as water. The recommended allotment of water is, a gallon of water per person, per day. This can quickly add up to a lot of weight! (8.8 lbs. per gallon of water)

Do not allow your wagon or pull behind device to be utilized for anything else so you have it when needed if you can.

Again, doing nothing is not an option if you desire any kind of positive outcome for you and your family in an emergency. If you have to utilize your kit at any time, it more than likely will be a very challenging time in your life...

You have the power to help determine your family's outcome in what will be a very chaotic time in all our lives! [www.utah.gov/beready/family/be-informed.html](http://www.utah.gov/beready/family/be-informed.html)

For emergency tip #1, see the October 2019 Saratoga View front page article.

medications, some cash money ("plastic" might not work), and a list of key contact information. Position your kit(s) with quick access in mind.

Acquire a wagon or pull behind

## Snow Removal & Winter Parking

By: Officer Sam Beck, Code Enforcement

During the winter months, the City's goal is to keep the streets safe for travel. The City is responsible for more than 90 miles of road, equating to about 180 miles of plowing.

With the snow season creeping up on us we wanted to reach out and let the public know the rules about parking vehicles on the street during the winter months.

Under City Code 19.18.10, Parking During Snow Removal From Streets, it reads, "It is illegal for the owner or driver of any vehicle to park, cause, or allow to be parked such vehicle upon a City street or right-of-way during a snowstorm when a measurable amount

of snow has fallen, or following a snowstorm when a measurable amount of snow has fallen, and the City's snow removal equipment has not yet been utilized to remove the snow."

The Streets Department has also asked that all portable basketball stands are removed off of the roadways.

City crews conduct snow removal and road salting operations around the clock, if necessary, during winter storms. In order to achieve this, the City has a prioritized sequence in which the roads will be plowed and salted.

Residents are reminded not to park vehicles on roadways during or

immediately after a snowstorm to allow snow plows to clear roadways.

Additional information regarding the City's snow removal guidelines and a map of street prioritization are available online at [www.saratogaspringscity.com](http://www.saratogaspringscity.com).

## Fall Clean Up

By: Darl Brown, Storm Water Coordinator

Fall is here, trees are losing their leaves, and we're making final cuts on our lawns and purging air through our irrigation systems so we can have freeze protection for

the cold winter months ahead.

As winter quickly approaches, residents can help keep storm drains clean by: cleaning the gutters in front of your home, picking up lawn clippings, bagging the leaves, and sweeping away dirt that has collected in front of your residence.

With the increased storm water from the snowfall that runs down the gutters, into the inlets, through the pipes and finally draining into Utah Lake or the Jordan River, please help to ensure that we have as few obstructions as possible. Let's do our part to leave it better than the way we found it.

For more information go to:  
<http://bit.ly/vapingrelatedillnesses>
