2022 Miss Saratoga Springs Royalty

We were pleased to hold our traditional Miss Saratoga Springs Scholarship Pageant again this year on March 12. We had four accomplished and lovely young ladies from our community participate. The purpose of this program is to recognize exceptional young women in our community and award them a scholarship after they have served in our community. Each participant attends workshops prior to the pageant to learn skills in resume building, interview, and dress.

The day of the pageant they participate in an interview with a panel of five judges. After the interview, at the pageant, they perform a fitness routine, talent and show poise while in a formal gown. We are pleased to congratulate our new Miss Saratoga Springs royalty and look forward to working with them this year.

Miss Saratoga Springs - Sydney Crandall
1st Attendant - Adelyn Jensen
2nd Attendant - Taylor Martin
2nd Attendant - Emmaline Sconiers

On March 5 we held interviews for the participants in the Little Miss and Jr Miss Saratoga Springs essay contest with a panel of three judges. These girls will assist our Miss Saratoga Springs Royalty in fulfilling their duties at various city events throughout the year. We are pleased to announce the winners of the essay contest.

Jr Miss Saratoga Springs - Lydia Prestwich

Little Miss Saratoga Springs - Sadie Dyal

The city is pleased to have such great youth in our community, that look for ways to serve and make Saratoga Springs a great place to live.

Storm Water Run Off

By: Darl Brown, Storm Water Inspector

Stormwater runoff is water from rain or melting snow that does not soak into the ground. It flows from rooftops, paved areas, bare soil, and lawns into storm drains or ditches. Storm sewers

and ditches collect stormwater runoff and empty it directly to local bodies of water.

Ideally, stormwater runoff would be free of contaminants. In reality, it picks up pollutants such as animal waste, pesticides, fertilizers, salt, oil and grease, soil and debris and transports them to waterways where they are discharged with no treatment. This is stormwater pollution.

You can identify a storm sewer by the open grates along roadways and within some low-lying areas.

What is an “Illicit Discharge?”

An illicit (illegal) discharge is any discharge to a municipal storm sewer system, storm drains, pipes, and ditches, that is not composed entirely of stormwater. Pollutants end up in storm sewer systems in a number of ways, many of which are easily preventable. In some instances, companies or residences have waste pipes tapped into stormwater pipes. In other cases, individuals use the storm drain inlets to dispose of various types of waste. Disposal of anything other than stormwater in storm sewers is illegal!

Arbor Day

The city is looking for 15 - 20
volunteers to assist in
planting trees for Arbor Day
on

April 28

For more information or to
volunteer email:
