## Snow Removal and Winter Parking

During the winter months, the City's goal is to keep the streets safe for travel. The City is responsible for more than 90 miles of road, equating to about 180 miles of plowing.

With the snow season creeping up on us we wanted to reach out and let the public know the rules about parking vehicles on the street during the winter months.

Under City Code 19.18.10, Parking During Snow Removal From Streets, it reads, "It is illegal for the owner or driver of any vehicle to park, cause, or allow to be parked such vehicle upon a City street or right-of-way during a snowstorm when a measurable amount of snow has fallen, or following a snowstorm when a measurable amount of snow has fallen, and the City's snow removal equipment has not yet been utilized to remove the snow."

The Streets Department has also asked

that all portable basketball stands are removed off of roadways, and that residents verify that any trees that overhang the roadway are pruned to the proper height to allow snow plows to traverse the road unimpeded.

City crews conduct snow removal and road salting operations around the clock, if necessary, during winter storms. In order to achieve this, the City has a prioritized sequence in which the roads will be plowed and salted.

Residents are reminded not to park vehicles on roadways during or immediately after a snowstorm to allow snow plows to clear roadways.

Additional information regarding the City's snow removal guidelines, proper mailbox placement and pruning heights, and a map of street prioritization are available online at [www.saratogaspringscity.com/snowremoval](http://www.saratogaspringscity.com/snowremoval)

### 6 Reasons To Move Your Car Off The Street When It Snows

- It is the law.
- If enough cars are parked along a road they could prevent access to snowplows.
- Cars parked along a road that can be accessed by a snowplow limit the clearing area of the snow plow as the driver maneuvers around parked vehicles.
- Maneuvering around vehicles takes extra time which limits how quickly roads can be cleared.
- Cars moved after a road has been cleared can leave large piles of snow in the road.
- Snow left in the road can limit road access to vehicles including public safety vehicles, garbage collection trucks and more.

# Drinking Water Quality Report

We're pleased to present to you this year's Annual Drinking Water Quality Report. This report is designed to inform you about the quality of the water and services we deliver

to you every day. Our goal is to provide you with a safe and dependable supply of drinking water.

We want you to understand the efforts we make to continually improve the water treatment process and protect our water resources.

We are committed to ensuring the quality of your water. Our water sources have been determined to be from groundwater and surface water sources.

The Drinking Water Source Protection Plan for Saratoga Springs is available for your review. It contains information about source protection zones, potential contamination sources and

management strategies to protect our drinking water. Our sources are located in remote and protected areas and have a low level of susceptibility to potential contamination sources.

We have also developed management strategies to further protect our sources from contamination. Please contact us if you have questions or concerns about our source protection plan.

If you have any questions about this report or concerning your water utility, please contact the water department at (801) 766-6506. To read the full report, please visit online at: [www.saratogaspringscity.com/drinkingwaterreport](http://www.saratogaspringscity.com/drinkingwaterreport)

## CLOSE YOUR SPRINKLER VALVE AFTER NOVEMBER 1

### TO PREPARE FOR THE CITY IRRIGATION SYSTEM TO BE CHARGED IN THE SPRING

## Preparing for Winter

By: Thomas Gwynn, Storm Water Management

The City of Saratoga Springs would like to remind our residents of the efforts we take in preparing for the changing of the seasons. In preparation for winter, the Parks Division will be performing the final lawn maintenance, the Water Division will be draining the secondary water system, and our Streets Division will begin the fall sweeping program. Residents will also be doing similar winter preparations on their own properties.

As you conduct your own winter preparations, please remember to keep grass

clippings and leaves from entering the storm drain system. Bag and dispose of them in the proper waste containers. Sweep or blow clippings onto your lawn, and not into the street. If you have debris in front of your home, please sweep it out of the curb and gutter then discard it properly.

If you find filter bags or drain protection around inlets in your neighborhood, do not remove or disturb these devices, as they are set up for construction activity and runoff protection in your area. If you identify

potential problems with any of these, please report your concern to the Public Works Department at 801-766-9793 ext. 279.

Remember, the small efforts of many can and do make a BIG difference for all of us. Thank you for your continued efforts in keeping our waterways clean and clear.

## Holiday Travel Tips

- ✓ Have a friend/neighbor watch your home
- ✓ Set up a timer for your lights
- ✓ Turn off water at fridge and toilets
- ✓ Store valuables, cash, and car keys in a locked safe
- ✓ Don't post about your trip online- including countdowns, pictures, check-ins, etc.

**Chat - CrisisLine**  
Opens 2 - way messaging with a SafeUT CrisisLine counselor.

**Call - CrisisLine**  
Tap this to speak to a SafeUT CrisisLine counselor. The CrisisLine number will appear and you can call immediately.

**Submit a Tip**  
Submit confidential tips to school administrators on bullying, threats, or violence.
