## SUMMER FUN IN SARATOGA SPRINGS

From great events and activities to award winning parks and natural recreation opportunities, there is always fun to be had in Saratoga Springs during the summer months. Due to its location, Saratoga Springs has many ways to enjoy the outdoors. Access to the Jordan River, Utah Lake, and the Lake Mountain range offers a variety of activities to enjoy the natural beauty of the area.

Saratoga Springs has another great lineup of summer fun this year. Summer Monday Fundays start the first Monday in June. The events team has partnered with the Food Truck League once again to provide food trucks at Neptune Park each Monday evening from 6 - 9 PM, June 5 - August 14. Each week a different activity will happen by the stage at 7:30 PM. From animal and hypnotist shows to a bike safety rally and concerts, there is sure to be something of interest for everyone.

Don't forget the event always kicks off with the Chalk, Walk, and Boogie on June 5. This fun chalk contest and Orchestra concert are a great way to start the summer. Say Aloha to summer and fall on August 14 with the End of Summer Luau. Come join us for a cultural Polynesian show featuring NOA Polynesia while enjoying great food from the food

trucks. The police department will be hosting its Remembrance Roll again this year on July 1 at Shay Park. The roll will begin at 9 AM. Residents can come at 8:30 AM to decorate their ride.

Of course, no summer is complete without attending at least one or two events at Saratoga Splash Days, celebrated the second full weekend of June. Splash Days will be held June 7-10 this year. We are excited to host the City of Fun Carnival once again.

This fun family-friendly carnival is a resident favorite. See the city website for hours of operation.

The events start Wednesday, June 7 with the Splash Bash. After having to cancel this event for the last few years due to COVID and the drought, we are excited to be able to bring this fun water party back. This event is for kids twelve and under. That night we will be holding an exclusive teen event for youth thirteen and over. Teens are invited to Inlet Park to come to participate in a chalk war and spike ball.

Of course, no Splash Days is complete without the Car Show, concert, boutique, firework show, and all of the wonderful activities your family has grown to love. For a full list of Saratoga Splash Days events including locations and times go to [www.saratogaspringscity.com/splashdays](http://www.saratogaspringscity.com/splashdays).

- 28 - Crafternoon: Stick Fish
- 29 - STEAM Kids' Club

## What Is Allowed In The Stormdrain

By: Jason Mears, Storm Water Division

With the weather turning the corner to warmer temperatures, our outdoor activities increase. As we spend more time outside working in the yard, or just soaking up the sun, we could all use a reminder about what can and can't

be put in the stormdrain. For more comprehensive information, please refer City Code 18.06.08.2.a, which is available for download on the city website. [www.saratogaspringscity.com](http://www.saratogaspringscity.com)

In summary, only uncontaminated discharges of water are allowed to go down the storm drain. In short, if it is a solid, then it is not allowed. If it has a chemical or detergent in it, then it is not allowed. Thus, grass clippings, weeds, tree trimmings, leaves, and automobile fluids (oil, gas, antifreeze) are all examples of prohibited discharges.

Rain runoff from your roof that flows down your gutters, driveway, and

into the curb and gutter is an example of an acceptable discharge. When in doubt, please err on the conservative side. Ultimately, this system drains directly into the Jordan River or Utah Lake, and is only intended to convey water that comes from storms.

In short, if it didn't fall from the sky as precipitation, then it needs to be discharged elsewhere. If you have specific questions or concerns please feel free to contact the Storm Water Division at 801-766-6506 and/or [stormwater@saratogaspringscity.com](mailto:stormwater@saratogaspringscity.com). Thanks to all of you for helping to keep our systems and waterways pollutant free. Photo by: Beatrice Rugeri

## First Aid Preparedness

### By: Jess Campbell, Fire Chief

Disasters can strike anytime and anywhere, and in such situations, being prepared can make all the difference. One of the key components of emergency preparedness is having adequate knowledge and skills in first aid. First aid is the initial care provided to a person who has been injured or fallen ill before professional medical help arrives. It can be the difference between life and death, and can also prevent the escalation of minor injuries into serious medical emergencies.

The State of Utah recognizes the importance of first aid and has made it one of the 12 areas of preparedness that families should focus on. The Utah Division of Emergency Management's Be Ready campaign provides a wealth of information and resources to help individuals and

families prepare for emergencies. The campaign encourages everyone to take a first aid course, and to have first aid kits both at home and in their cars. Having a first aid kit that is well-stocked and easily accessible can be crucial in times of emergency.

It is important to note that first aid is not a substitute for professional medical care. However, being knowledgeable and prepared can help to reduce the severity of

an injury or illness and can also help to calm and reassure those affected by the emergency. By prioritizing first aid as a key element of emergency preparedness, we can increase our chances of surviving and recovering from emergencies and disasters. For more information on first aid go to: [www.beready.utah.gov/family-preparedness/12-areas-of-preparedness/first-aid/](http://www.beready.utah.gov/family-preparedness/12-areas-of-preparedness/first-aid/)
