Summer Fun in Saratoga Springs

By: Corrine Prestwich, Civic Event Coordinator

Summer fun happens right in our own backyard! Join us for Summer Monday Fundays each week from June 3- August 18 and Saratoga Splash Days June 5-8.

Summer Monday Fundays kick off with the annual favorite “Chalk, Walk & Boogie” at Neptune Park on June 3. Take part in the sidewalk chalk contest, enjoy the local talent of the Saratoga Community Orchestra, grab dinner from the food trucks and shop the new Maker’s Market. Each Monday this summer will include food trucks, entertainment and more. Beginning June 17, there will be a Farmer’s Market. You won’t want to miss the opening market night with a special butterfly release! Other highlights for Monday Fundays include fireworks on July 1 and our End of Summer luau on August 18. See the full entertainment line-up on our website.

Saratoga Splash Days will be a highlight of the summer! Kicking off Wednesday, June 5 with our kids’ Splash Bash water party, Teen Chalk War and family night at the carnival, the fun is just getting started. The carnival will be open Wednesday thru Saturday. Pre-sale vouchers go on sale May 1. Thursday is our picnic in the park and movie night. Giving a

nod to the 20th anniversary of the release of Napoleon Dynamite, slip on your moon boots and join the fun. There will be costume contests, a dance off, photo booth, arm wrestling contest, fish pond and more! These free activities will be available from 5-7:30 pm, followed by the Hypno Hick on the main stage. Stick around and watch Napoleon Dynamite on the big screen at dark.

The fun continues Friday with our high-energy concert featuring The Salamanders. Visit the boutique and activities before the show and stick around after the concert for a drone show produced by Open Sky Productions. This is a party you won’t want to miss!

Saturday starts off with the Grand Parade along 800 West and 400 North. Bring your family and friends and find your spot before the 10 AM start. Following the parade, Neptune Park will be packed with fun all day. Check out the boutique, car show, live entertainment, food trucks and carnival. Saturday evening you can show off your skills at the Pickleball Tournament at Patriot Park, followed by fireworks launching from Patriot Park around 10 pm.

For full details and registrations, go to www.saratogasprings-ut.gov/SplashDays.

Community Development Update

By: Ken Young, CDD Director

A new Downtown Plan was recently approved which sets the framework and vision for the development of something Saratoga Springs has been missing: a

Downtown. The development area is located between Pioneer Crossing and Mountain View Boulevard. Build out of this area will likely take many years, and the plan is at this point conceptual and subject to change. The plan can be viewed on the City website at www.saratogasprings-ut.gov.

In recent years, the Community Development Department has sponsored public events known as “Breakfast with Planners”, where residents can get updates to current projects and ask questions regarding community planning. A regular feature is the Ask-a-

Planner discussion, where many questions are answered, such as:

“What will be included in the new Downtown? What new trails are being planned? What new commercial projects are in the works? What is the City’s plan for allowing high density residential development? Can we stop or slow down development? What’s the plan for new city facilities, such as the new Library/City Hall, parks and recreation? What’s the plan for new and expanded roadways?”

If you have similar questions, the next planning outreach event will be held in October.

Protecting Storm Drains From Oil Spills

By: Owen Peterson, Storm Water Division

Living so close to Utah Lake and the Jordan River creates a unique opportunity for residents of Saratoga Springs to become more aware of the importance of

protecting the storm drains from oil spills. If the oil reaches the storm drains it will get washed into the Jordan River or Utah Lake. Adding pollutants to these bodies of water harms the environment. Ensuring we can act fast to clean up oil spills is very important. If there is an oil spill, you should first protect the storm drains so it doesn't get contaminated. Here is a list of supplies you can use to clean up oil spills.

- Oil Dry

- Cat Litter
- Saw Dust

Once you have one of these materials you will apply generously onto the oil spill. Pushing the material around is important to ensure it soaks up all the oil. When the oil is all soaked up, put the material into a container and dispose of it properly. The City of Saratoga Springs appreciates everyone's help keeping our waters clean.

Emergency Preparedness Light & Power

Emergency lighting is necessary for safety and for emotional and mental health. Light helps you see and avoid hazards. It can help you better see and understand your situation when a disaster happens. Have you ever been in a cave with absolutely no light? It can be disorienting at the very least.

Power outages are very common, especially during emergencies and disasters. Knowing what to do in a power outage situation can help you “Be Ready” for your own safety and the safety of others.

*Add electrical power and natural gas company phone numbers in your emergency contacts.

*Put flashlights, batteries, and chemical glow sticks in emergency kits.

*Store batteries in original packaging – not in flashlights, radios, or other electronic devices.

*Learn how to safely shut-off all of the utilities at your home and

teach all responsible people how and when to do the same.

*Store a gas shut-off wrench near your outside gas meter.

*Have emergency chargers for mobile phones and other emergency communication equipment.

*Get power back-ups if someone uses life-saving electronic medical equipment.

*Install safety lighting where needed around your home.
