Help Prevent Harmful Algal Blooms In Our Waterways

By: The Stormwater Department

Summer is approaching quickly, and that means it's time to enjoy the water! Who doesn't love a sunny day spent by the lake or fishing with family?

Unfortunately, access to some of our waterbodies may be restricted or closed due to harmful algal blooms (HABs). These blooms are a growing concern as they are increasing in both frequency and duration across many of our waterways. HABs often occur when water temperatures rise in areas with high nutrient levels.

Harmful algal blooms produce toxins that can negatively affect humans, pets, and wildlife. To help reduce the occurrence of HABs, the City is asking all residents to be mindful of the nutrients entering our

watersheds. This includes reducing the amount of fertilizer used on lawns, picking up pet waste, and avoiding dumping any materials that could enter the storm drain system.

Please help us protect the waterways we all enjoy!

If you see any suspicious dumping, please contact the City's Public Works Department at 801-766-6506 so we can investigate.

To learn more about harmful algal blooms, visit the Utah Department of Environmental Quality at: deq.utah.gov/water-quality/recreational-water-quality-home

REMINDER: Keep Streets Clear for Garbage and Recycling Trucks

By: Utility Billing

Lately, garbage and recycling trucks have had trouble getting down some streets to pick up trash and recycling. This is mostly because:

- Cars are parked on both sides of the street, making it hard to pass.

- Landscaping materials like rock, mulch, dirt, or sod are being delivered and left on the street instead of in driveways, which goes against City Code.

When streets are blocked, trucks can't reach the bins at the curb. We ask everyone to follow the rules and have landscaping materials delivered to driveways—not the street. Also, please be careful when parking so there's enough room for large vehicles, including emergency trucks, to get through. Thanks for helping keep our streets safe and accessible for everyone.
