# Only Rain Down The Drain

## By: The Storm Water Department

Beneath our city lies a network of pipes that direct precipitation back to

Utah Lake and the Jordan River. These tunnels occasionally open up into grates, allowing runoff to enter the system. It can be tempting to put things down the storm drain, but please remember that these actions accumulate and create a significant problem over time.

More often than not, our storm drains don't filter what is put into them.

Anything deposited into the storm drain can pollute our water. To help prevent this,

please clean the gutters by your home, pick up after your pet, avoid over-fertilizing your lawn, properly dispose of motor oil, and take your car to the carwash. These seemingly small actions can make a big impact on our environment.

Remember, when it comes to storm drains, "Only Rain Down the Drain."

Thank you for your assistance in helping us keep the City of Saratoga Springs clean and pollution free.

# July

## Annual Drinking Water Quality Report

By: Water Division

We are pleased to present this year's Annual Drinking Water Quality Report. This

report is designed to inform you about the quality of the water and services we deliver to you every day. Our constant goal is to provide you with a safe and dependable supply of drinking water.

We want you to understand the efforts we make to continually improve the water treatment process and protect our water resources. We are committed to ensuring the quality of water in Saratoga Springs. Residents can access the full report by going to: [www.saratogasprings-ut.gov/waterquality](http://www.saratogasprings-ut.gov/waterquality)

PLANNING TO EXPLORE THE WORLD?

Make an appointment to apply for your passport at the City Passport Office!
