** The City may not be required to produce color copies of any record, the City may reply to an express request for color copies of a color document or color copies of a redacted color document and may charge as shown above.

The City shall not charge a fee for reviewing a record to determine whether it is subject to disclosure, except the cost of staff time for search, retrieval, and other direct administrative costs for complying with a request.

When, as a result of a record request, the City compiles a record in a form other than that normally maintained by the City, the City may charge for actual costs that include:

1. The per page charges set forth above;
2. The cost of staff time for compiling, formatting, manipulating, packaging, summarizing, or tailoring the record either into an organization or media to meet the person’s request;
3. The cost of staff time for search, retrieval, and other direct administrative costs for complying with a request; and
4. In the case of fees for a record that is the result of computer output other than word processing, the actual incremental cost of providing the electronic services and products together with a reasonable portion of the costs associated with formatting or interfacing the information for particular users, and the administrative costs as set forth in 2 and 3 above.

The hourly charge for 2, 3, and 4 above may not exceed the salary of the lowest paid employee who, in the discretion of the City Manager, has the necessary skill and training to perform the request. Notwithstanding any other provision of this policy, no charge shall be made for the first quarter hour of staff time.

The City may require payment of past fees and future estimated fees before beginning to process a request if (a) fees are expected to exceed \$50; or (b) the requester has not paid fees from previous requests. Any prepaid amount in excess of fees due shall be returned to the requester.

EMS SERVICES

EMS SERVICES

A ground ambulance of paramedic provider is only allowed to charge a fee for transporting a patient when the patient is actually transported. However, this does not apply to licensed ambulance providers, licensed paramedic providers, or designated quick response providers responding to a medical assessment in a geographic service area which contains a town as defined in Utah Code Annotated Title 10-2-301(2)(f).

Pursuant to Utah Code Annotated Title 26-8a-403 and Administrative Rule R426-8-2 the allowable ambulance rates beginning July 1, 2019 are as follows:

Base Rates

Ground ambulance: \$1,000.00 per transport

Advanced EMT ground ambulance: \$1,320.00 per transport

Advanced EMT ground ambulance license level, who prior to June 30, 2016 was licensed as an EMT-IA ground licensed ambulance provider: \$1,625.00 per transport

Paramedic ground ambulance license level: \$1,930.00 per transport; and

Paramedic on-board (paramedic not employed by the licensed ambulance provider): \$1,930.00

Mileage Rates

The standard mileage rate is \$38.75 per mile or a fraction thereof. In all cases, mileage shall be computed from the point of pick-up to the point of patient delivery.

Fuel fluctuation rate changes may be granted when diesel fuel exceeds \$5.10 per gallon or when gasoline exceeds \$4.25 per gallon as invoiced; a surcharge of \$0.25 per mile traveled may be assessed.

An off-road rate may be charged when an ambulance is required to travel 10 miles or more on unpaved road. A surcharge of \$1.50 per mile may be assessed.

Supplies and Medications

A Licensed ground ambulance provider may charge for supplies and for providing supplies, medications, and administering medications used on any response if (1) supplies and medications are priced fairly and competitively, (2) the individual does not refuse service, and (3) the licensed personnel for the licensed ambulance provider assess or treat the individual.

Special Provisions

If more than one patient is transported from the location of the patients to the same destination hospital or patient receiving facility, a charge shall be assessed to each patient as follows: (1) the transportation base rate; and (2) the mileage rate divided equally between the total number of patients.

A Licensed ground ambulance provider may charge separately for a round trip if the following conditions apply: (1) no charge is billed to the patient for at least 30 minutes at the hospital or a patient receiving facility at the half-way point of the trip; and (2) no more than \$22.05 per quarter hour is charged for time over 30 minutes.

Leak Forgiveness Program

Because the cost of a leak in a residential customer’s irrigation system can be costly, the City established a leak forgiveness policy with the following guidelines:

1. Participation is only available to residential customers.
2. This policy only applies to water leaks and does not apply to customers who overwater or establish new sod.
3. Each account is eligible to request forgiveness up to once per year.
4. The City will only forgive an amount over 150% of the resident’s allotment.
5. The residents must request the forgiveness no later than 30 days after the high water bill’s due date.
6. Customers must be current on their City utility account (with the exception of the month for which they are requesting to use this leak forgiveness policy).
7. Sufficient proof and/or documentation evidencing a leak may be required to be provided by the resident before the City forgives any amount.

UTILITIES

Res. R15-17 (4-21-15)

Culinary Water Leak Forgiveness Program.

- A. This policy is applicable to all City culinary utility account types (i.e. residential, commercial, etc.)
 - B. A customer with a leak in their culinary water system is eligible for an adjustment to the culinary water and sewer portion of their monthly bill. If the leak occurred over more than one billing cycle, the customer is only eligible for an adjustment to one month's bill.
 - C. Customers must present the City with documentation of a water leak and subsequent repairs. Customers who have a high utility bill due to high water usage and not a leak are not eligible for this program.
 - D. Customers are eligible for the leak forgiveness program once every 36 months. 36 months must have passed since the last time the customer used this program.
 - E. Customers must be current on their utility account, with the exception of the month in which the leak occurred, to be eligible for this program.
 - F. Adjustments to culinary water usage will be calculated as follows. The customer will pay for the normal culinary water usage as defined hereafter. Normal culinary water usage is defined as the average usage during the same month for the previous two years. If the customer has only occupied the property for 2-23 months staff is delegated discretion to find the most accurate estimate of water used.
 - G. Adjustments to sewer usage will be calculated as follows. The customer will pay for 56% of actual culinary water used (sewer is billed based upon culinary water usage. If documentation shows that the leak occurred at a location where the water would not have entered the sewer system, the customer will only be responsible to pay their normal sewer charge as defined above. For example, if the leak occurred in the water lateral in the customer's landscaping, the water would not have entered the sewer system.
 - H. Adjustments shall not occur unless and until the Customer registers for the My Water Use Customer Portal on the City's website.
 - I. Applications for water forgiveness must be submitted within 30 days of the bill in dispute's due date to qualify for this program.
- Ord. 22-31 (7-19-22)

Secondary Water Forgiveness Program

Who is eligible?

Residential customers may apply for the water forgiveness program. Commercial, institutional, industrial, or other non-residential customers are not eligible for this program. Customer's must be current on their City utility bill (with the exception of the month for which you are applying for an exemption) to be considered for this program.

Which utilities are eligible?

This water forgiveness program only applies to secondary water. It does not apply to the culinary water, sewer, storm drain, garbage, street lighting or other City utilities.

What circumstances qualify for water forgiveness?

UTILITIES

This program is available for residential customers who have a significant water break or leak in their irrigation system that causes their secondary water bill to be significantly higher than normal. This program is not available to customers who have a high secondary water bill due to overwatering or establishing new grass.

Documentation and/or proof of leaks and subsequent irrigation system repairs may be required to be provided to the City prior to approval.

How often will an exemption be granted?

An exemption may be granted once per irrigation season (calendar year). If an exemption is used in June, it could not be used again in August of the same year.

How much of my bill will be forgiven?

Each account has an established allotment of secondary water. Residents who qualify for this program may have any charges that exceed 150% of their allotment forgiven. The resident will still be responsible to pay the charges up to 150% of the allotment. Adjustments shall not occur unless and until the resident registers for the My Water Use Customer Portal on the City’s website.

Example: A customer with a ¼ acre lot has a significant irrigation system break. Their monthly allotment of water is 27.2 thousand gallons. If, during the month of an irrigation system break, they used 100 thousand gallons, the secondary water portion of their bill would be approximately \$236.80. If they qualified for this program, they would be eligible for a reduction of \$189.61 from their secondary water bill. Their new total would be \$47.19 for secondary water.

When do I have to apply for the exemption?

Residents must complete this form and apply for the exemption within 30 calendar days of the high water bill’s due date.

What happens if I already paid my bill?

If you have already paid your bill in full for the month for which you are applying, you may still request forgiveness as long as it is requested within 30 calendar days. If you are approved, a credit of the forgiven amount will be given on your City utility account.

v. **Equipment, Kits, Launchpads, Library of Things, or Recreation Equipment Returned in Book Drop Fee.** \$5.00 for each item returned. If damage to the device is discovered by Library staff, these costs will be added to the customer’s account.

vi. **Collection Agency Fee.** This fee of \$20.00 will be charged for accounts with more than \$50.00 in lost or damaged items that are not paid within 90 days of the 30 day overdue notice being issued. The account will then be sent to a collection agency.

Payment Plans: If the cardholder works with Library staff to establish a payment plan prior to the account being sent to collections, no collection agency fee will be charged and the account will not be sent to collections, as long as the payment plan is followed. They will be unable to resume use of their library card until the balance on their account is less than \$10.00.

vii. **Inter Library Loan Postage Fee.** This fee is \$3.00 or the postage cost, whichever is greater, will be charged for items which are borrowed from other libraries and postmarked back to the originating library.

viii. **Printing.** The cost to print from public computers or our wireless printing portal is \$0.10 per page using black ink or \$0.25 per page using color ink.

Fine Waivers.

i. The Saratoga Springs Public Library Advisory Board reserves the right to authorize the Library to allow customers who make specific donations to waive outstanding fines. This may happen during designated dates, which shall not exceed 14 days in a calendar year.

ii. Fines up to \$2.00 may be waived at the discretion of the Library staff and up to \$50.00 may be waived at the discretion of the Library Director.

1. For fines above \$50.00, the City Council delegates authority to the City Manager to exercise discretion to waive fines or fees on a case-by-case basis.

iii. Customers can apply for a fine forgiveness program once every 36 months based on demonstration of a medical or financial hardship for the adult account holder or co-signer.

LIBRARY

1. This program can allow for the forgiveness of a portion of the overdue fines. All items must be returned or replacement cost and processing fees must be paid.
 - a. Items that are returned more than 60 days overdue or that the Library has repurchased, are ineligible to have the replacement cost removed from the account and will be treated as donations to the Library following the Collection Development Policy.
 2. Customers will fill out an application for fine forgiveness within 120 days of the 30 day overdue notice being issued or within 120 of the fine's accrual date, whichever occurs first, to qualify for the program.
 3. Adjustments will be calculated as follows: customers will pay for 50% of total of overdue fines. For example, if the customer owes \$200.00, they will be responsible for \$100.00.
 4. Customers can make payments until the amount has been paid in full with the minimum monthly payment of either 10% of the adjusted fine or \$5.00, whichever is greater. They will be unable to resume use of their library card until the balance on their account is less than \$10.00.
- iv. Fees for Lost or Damaged Items can be paid, or Library users may request permission to purchase the exact same item to replace the damaged item. Replacement items will only be accepted with prior approval from the Library Director or designee, if they are new and constructed with the same binding as the original item owned by the Library. If the item is a paperback, there will be an additional processing fee to cover the cost of re-laminating the item.

Refunds.

If lost items are paid for and then found by the customer and returned to the Library within 60 days of their due date, the Library will refund the cost of the item, but not the charge for fines. After a 60 day period, no refunds will be granted and any returned items will be considered donations to the Library.

Collections.

In the case of customer failure to return materials, the Library may disclose circulation information to a collection agency hired to secure the return of, or payment for, Library materials. A fee of \$20.00 will be charged for accounts with more than \$50.00 in lost or damaged items that are not paid within 120 days. The collection agency considers all information confidential and does not sell or share any customer information. In the case of Library materials obtained by means of theft or fraud, the Library may disclose information to law enforcement officials.

POLICY

1. **PAYMENT OF CHARGES, REIMBURSEMENT OF PROFESSIONAL FEES, AND COLLECTION OF PAST DUE ACCOUNTS**

This section amends, enacts new provisions, and restates and consolidates prior resolutions of the Government Body of the City of Saratoga Springs and clarifies the requirements for collection of facilities, construction payments, past due accounts and other remedies to collect past due accounts from development applicants and others.

As additional fees for development review and approval, each development applicant shall be responsible to reimburse the City of Saratoga Springs for all excess fees and charges plus 10% administrative costs incurred by the City of Saratoga Springs in the review and processing of the development applications for subdivision, site-plan review, building permit, master development plan (original or amended) or other development review. Existing application fees stated above payable by applicants include reasonable monetary charges for professional services required to the City to review and process the developers application, however, if the project or development review requires more professional or other third party services than anticipated and provided for in the original application fee, the developer shall be responsible to reimburse the City for the excess reasonable fees and charges incurred in the review, processing and compliance assurance required by the City to complete consideration of the developers application. Such fees and charges shall accrue to, and are payable by, the development entity which executes the development application, or enters into a development agreement with the City of Saratoga Springs as required under the City Development Code.

The City shall bill developers for excess reimbursable fees accruing under paragraph A above and all other charges on a regular basis within forty-five (45) days of the payment of such reimbursable fees and/or accrual of other charges to the developer by the City. The billing by the City shall be in reasonable detail to permit the developer applicant to determine the reason for the expenditure, the project for which the fees or charges were incurred, and the rate or other basis for the reimbursement or other charge. Billings for reimbursable fees are due upon receipt and if the balance due is not paid within thirty (30) days of mailing, the developer applicant account is delinquent and the developer applicant is in default on its reimbursement fee obligations to the City. Every billing statement from the City to a developer shall be deemed correct, accurate, undisputed and due in full unless the City Treasurer is notified in writing of a disputed bill in reasonable detail to ascertain the exact question or matter in dispute which thirty (30) days of the postmarked date on the mailed statement or the date of hand-delivery if the statement is not delivered through the U.S. Mail.

Developer/applicant, or their representatives, may informally confer with City staff to obtain further information, ask questions, and receive clarification of charges included on the billings. An informal conference may result in changes to the invoice from the City to the developer applicant.

If the developer applicant does not dispute the billing, request information and engage in an informal conference with staff concerning the billing, the invoice shall be due thirty (30) days from the date of the invoice. Billed invoices shall be due and payable to the City thirty (30) days from the date of the invoice in the case of undisputed invoices and fifteen (15) days after receipt of a corrected invoice in

POLICY

the case of an invoice corrected after an informal conference or corrected after a decision by the City Council.

Developer/applicants must remain in good standing with all amounts due and payable to the City paid as such amounts become due. Developer/applicants who are delinquent in payment of reimbursable fees and charges to the City, or other charges to the City, are deemed to be in default and the processing of all applications before the City staff, Planning Commission or City Council may be tabled until the developer applicant's default is cured by the timely payment of all fees and charges or the execution of an agreement for the payment of all fees and charges acceptable to the City Treasurer or Administrator. Except as provided below, City staff are specifically instructed to verify that each developer/applicant is in good standing with respect to all fees and charges owed to the City before presenting development applications to the Planning Commission agenda or to the City Council agenda, and specifically before recordation of plats or final signing and approval of site-plans, building permits, or other development approval applications.

Utility customer's accounts are due and payable within thirty (30) days of the date of the utility billing. Utility customers, who do not pay the full amount of the utility billing invoice within thirty (30) days, are in default and are subject to disconnection of utilities and collection of the delinquent amounts. This section describes the process for notice to utility customers of billing delinquency, terminating service, collection of reconnection fees, and provisions for deferred payments schedule contracts.

In the event payment in full is not received within the seven (7) day delinquent account notice period, a termination of service/shutoff notice will be issued stating the date service will be discontinued for nonpayment if delinquent payments are not received by the City. Utility customers are invited to contact City staff during the seven (7) day delinquent account notice period to arrange a deferred payment schedule, which may be approved by the City as provided below.

Services terminated for non-payment of delinquent accounts shall not be reinstated until payment of the delinquent account is received or an acceptable deferred payment contract is approved by the City and the initial payment required under the deferred payment schedule is received by the City together with the reconnect fee to reimburse the City for the services necessary to reinstate the utility service.

A deferred payment schedule contract may be entered with a delinquent customer, provided that the deferred payment schedule does not extend for a period of more than one (1) year, provides for a specific amount to be paid each month together with interest as provided below. Utility customers who do not comply with the terms of an executed deferred payment schedule contract are subject to termination of service after the City provides the delinquent account notice and the shutoff notices provided above. Service terminated after default on a deferred payment contract form shall not be reinstated until the entire past due amount is paid in full and a deposit as collateral for all future service is received by the City in an amount equal to three (3) times the average monthly billing for the service in consideration.

POLICY

All bills for utility service, invoices for reimbursable fees or other charges owned to the City of every kind and nature except for returned checks, shall bear interest at the rate of 1.5% per month on the unpaid balance due.

Each check or other instrument tendered to the City for payment of an obligation to the City and returned to the City as a dishonored instrument shall accrue the maximum penalty, service charges and other allowable fees for recovery of the amount due allowed by Utah law.

The City will establish a utility deposit of \$120.00 for all new utility customers. The deposit will be applied to the account after 12 months of continuous non-delinquent history. In the event of a non-payment shut off, the deposit will be applied to the account and a new deposit will be required before service is reestablished.

2. OTHER

It is not intended by this Resolution to repeal, abrogate, annul, or in any way impair or interfere with existing provisions of other resolutions, ordinances, or laws except to effect modification of the fees reflected above. The fees listed in the Consolidated Fee Schedule supersede present fees for services specified, but all fees not listed remain in effect. Where this Resolution imposes a higher fee than is imposed or required by existing provisions, resolution, ordinance, or law, the provisions of this Resolution shall control.
