7.08.01. Definitions.

As used in this Chapter the following terms shall have the meanings herein set out:

1. **“Additional Sewer Impact Fees”** means the Additional Sewer Impact Fees adopted and imposed by this Chapter on development activity within the Harbor Bay Special Service Area.
2. **“Development Activity”** or **“new development”** means any construction or expansion of a building, structure, or use, any change in use of a building or structure, or any changes in the use of land that creates additional demand and need for Public Facilities.
3. **“Harbor Bay Special Service Area”** means the service area formally adopted by the City Council in this Chapter for Additional Sewer Impact Fees that covers the area east of Redwood Road extending from the Harbor Bay development north to Saratoga Springs Development as more fully described in this Chapter.
4. **“Impact Fees”** means the Impact Fees adopted and imposed by this Chapter on Development Activity within the City.
5. **“North Benefited Area”** means property within the Harbor Bay Special Service Area extending from the proposed lift station near El Nautica north to Saratoga Springs Development as further described in this Chapter. There are 282 estimated equivalent residential units in the North Benefited Area.
6. **“Public Facilities”** means the following capital facilities that have a life expectancy of ten or more years and are owned or operated by or on behalf of the City.
7. **“South Benefited Area”** means property within the Harbor Bay Special Service Area extending from the Harbor Bay Development north to El Nautica as further described in this Chapter.
8. **“South Special Service Area”** means the sewer Special Service Area originally established by the City Council in July 2000 that covers all of the City except for the

portion of the City being included in the North Special Service Area adopted by the City Council.

(Ord. 11-9; Ord. 06-14)

7.08.02. Findings and Purpose.

The City Council hereby finds and determines:

1. The City of Saratoga Springs was incorporated in 1997 and has experienced a tremendous amount of growth which requires the installation of public utilities to serve anticipated growth.
2. The City is authorized to enact impact fees for public facilities and adjust the standard impact fees as necessary to respond to unusual circumstances in accordance with the provisions of the Utah Impact Fees Act, Utah Code § 11-36-101, et seq.
3. The City adopted an Impact Fee Ordinance on April 13, 1999, covering roads, storm drainage, Drinking and secondary water (subject to the City's Water Utility Ordinance), wastewater collection, parks and open space, and public safety. Said Impact Fee Ordinance was based upon the capital facilities plan prepared by Wilding Engineering, Inc. (the "Capital Facilities Plan") which covered the "Public Facilities" for which "Impact Fees" were proposed and which established the estimated costs for providing Public Facilities occasioned by "Development Activities" within the City as well as a written analysis for each Public Facility upon which Impact Fees were adopted that identified and analyzed the proportionate share of the costs of the impacts on the Public Facilities which are reasonably related to Development Activity within the City.
4. In 2000 the City could not meet its reimbursement obligations for the south area of the City based upon the sewer impact fees established by the original Impact Fee Ordinance and as a result the City established a sewer Special Service Area covering the south portion of the City and adopted an increased sewer impact fee for that Special Service Area of \$1,200 for each sewer connection or equivalent residential unit ("ERU").
5. It was determined through an engineering analysis that a portion of the south area needed to install an additional sewer gravity line, lift station, and pressure line in order to serve certain properties located on the east side of Redwood Road and extending from the Harbor Bay Development north to Saratoga Springs Development.
 - a. This sewer project would benefit approximately 775 ERUs and would allow development to continue for said area. However, the cost of this additional sewer line project cannot be reimbursed through the existing sewer impact fee. Therefore, the City has determined that it needs to establish a special service area for the developments in the aforementioned part of the City referred to as the "Harbor Bay Special Service Area," and to adjust the sewer impact fee for the Harbor Bay Special Service Area to an amount that will provide sufficient proceeds to meet the City's needs and obligations for development served by the existing and needed additional sewer facilities.
 - b. Since certain developments within the Harbor Bay Special Service Area will utilize different portions of the sewer facilities, impact fees will be assessed differently depending upon where the development is located in the service area.

Therefore, the Harbor Bay Special Service Area will be divided into the “North Benefited Area” and the “South Benefited Area” and will be assessed in the amounts hereinafter set out.

6. There is a need to charge an additional wastewater collection impact fee for the area identified as the Harbor Bay Special Service Area in order to meet the needs and obligations regarding new sewer facilities and the improvements and additions to be made to the same.
7. Establishing the Harbor Bay Special Service Area and establishing the Additional Sewer Impact Fees for that area, as opposed to changing to the wastewater collection impact fee for the City or the South Special Service Area in general, is appropriate since the additional sewer facilities are being constructed to benefit only the Harbor Bay Special Service Area within the City.
8. The Harbor Bay Special Service Area Sewer Facilities Agreement identifies the need for the additional sewer impact fees for the Harbor Bay Special Service Area and demonstrates why the proposed additional sewer impact fees for that area is fair in light of the circumstances relating sewer facilities needed to serve the Harbor Bay Special Service Area.

(Ord. 11-9; Ord. 06-14)

7.08.03. Establishment of Harbor Bay Special Service Area.

The City Council hereby approves and establishes the Harbor Bay Special Service Area for which the Additional Sewer Impact Fees herein provided will be imposed. The Harbor bay Special Service Area shall include all land within the City east of Redwood Road extending from and including the Harbor Bay Development on the south north to but excluding the Saratoga Springs Development on the north.

(Ord. 11-9; Ord. 06-14)

7.08.04. Continuation of South Service Area.

The creation of the Harbor Bay Special Service Area is in addition to and not in lieu of the South Special Service Area that was previously created by the City. The development within the Harbor Bay Special Service Area will utilize the City’s sewer system covered by the South Special Service District Impact Fee in addition to the newly installed sewer lines and lift station covered by the Harbor Bay Special Service Additional Impact Fees.

(Ord. 11-9; Ord. 06-14)

7.08.05. Adoption and Imposition of Additional Sewer Impact Fees.

1. The City Council hereby approves and imposes and levies on all Development Activity in the South Benefited Area of the Harbor Bay Special Service Area the Additional Wastewater Impact Fee in the amount of \$2,174.00 per residential connection. This impact fee will be in addition to and not in lieu of the \$1,200 impact previously established by creating the South Special Service Area.

2. The City Council hereby approves and imposes and levies on all Development Activity in the North Benefited Area of the Harbor Bay Special Service Area the Additional Sewer Impact Fee in the amount of \$646.00 per residential connection. This impact fee will be in addition to and not in lieu of the \$1,200 impact previously established by creating the South Special Service Area.
3. In adopting the Additional Sewer Impact Fees for the Harbor Bay Special Service Area, the City Council hereby adopts the analysis set forth in the Harbor Bay Special Service Area Sewer Facilities Agreement and the methodology used for the calculating the Additional Sewer Impact Fee imposed for the Harbor Bay Special Service Area by this Chapter.

(Ord. 11-9; Ord. 06-14)

7.08.06. Stacked Unit, Multi-Family Residential Dwellings.

Impact fees for stacked unit, multi-family residential dwelling units shall be computed at 0.5 Equivalent Residential Units (ERUs) per individual dwelling unit in a building.

(Ord. 11-9; Ord. 10-3)

7.08.07. Use of Additional Sewer Impact Fees.

The Additional Sewer Impact Fees collected by the City in the Harbor Bay Special Service Area shall be used as provided in the Harbor Bay Special Service Area Sewer Facilities Agreement and as provided in this Chapter.

(Ord. 11-9; Ord. 06-14)

7.08.08. Adjustments.

The City may adjust the impact fees imposed by this Chapter as necessary in order to:

1. respond to unusual circumstances in specific cases;
2. ensure that the impact fees are imposed fairly;
3. adjust the amount of the Impact Fees to be imposed on a particular development based upon studies and data submitted by the developer that are approved by the City Council; and
4. allow credits as approved by the City Council for dedication of land for, improvements to, or construction of Public Facilities providing services to the City at large, provided such facilities are identified in the Capital Facilities Plan and are required by the City as a condition of approving the development or Development Activity.

(Ord. 11-9; Ord. 06-14; Ord. 99-0413-1)

7.08.09. Accounting, Expenditure, and Refunds

(Ord. 11-9; Ord. 06-14)

Any person or entity residing in or owning property within the Harbor Bay Special Service Area and any organization, association, or corporation representing the interests of persons or entities owning property within the Harbor Bay Special Service Area, may file a declaratory judgment action challenging the validity of the Additional Wastewater Impact Fees for the Harbor Bay Special Service Area after filing an appeal with the City Council as provided in Subsection (4) of this Section.

 - a. Upon receipt of an appeal, the City Council shall thereafter schedule a public hearing on the appeal at which time all interested persons will be given an opportunity to be heard. The City Council shall schedule the appeal hearing and thereafter render its decision on the appeal no later than thirty days after the challenge to the impact fee is filed.
 - b. Any person or entity who has failed to comply with the administrative appeal remedies established by this Section may not file or join an action challenging the validity of any Impact Fee.
 - c. Within ninety days of a decision upholding an Impact Fee by the City Council or within 120 days after the date the challenge to the impact fee was filed, whichever is earlier, any party to the appeal who is adversely affected by the City Council's decision may petition the Fourth Judicial District Court for Utah County for review of the decision. In the event of a petition to the Fourth Judicial District Court, the City shall transmit to the reviewing court the record of its proceedings including its minutes, findings, orders and, if available, a true and correct transcript of its proceedings.
 - i. If the proceeding was tape recorded, a transcript of that tape recording is a true and correct transcript for purposes of this Subsection.
 - ii. If there is a record:
 1. the court's review is limited to the record provided by the City; and

2. the court may not accept or consider any evidence outside the City's record unless that evidence was offered to the City Council and the court determines that it was improperly excluded by the City Council.

7.12.01. Determination of Costs of the Improvements.

The acquisition and construction costs of the Improvements described herein within the Utah Special Improvement District 2005-1 (“District”) have been determined and the City Council has determined that the total acquisition and construction costs of Improvements within the District, including overhead costs, is \$9,966,051.75, of which the City will pay approximately \$2,013,860, and that the properties benefited within the District will be assessed an assessment in an aggregate principal amount of \$8,441,691.75.

(Ord. 11-9; Ord. 09-20; Ord. 09-18)

7.12.02. Approval of Assessment List; Findings.

The City Council hereby accepts and adopts the Findings and Recommendation of the Board of Equalization and Review. The Council confirms and adopts the equalized and adjusted assessment list for the District, a copy of which is attached hereto as Exhibit B and incorporated herein by reference (the “Assessment List”). The Council has determined that the Assessment List, as adjusted and equalized, is just and equitable; that each piece of property to be assessed within the District will be benefited in an amount not less than the assessment to be levied against said property; and that no piece of property listed in the Assessment List will bear more than its proportionate share of the cost of Improvements.

(Ord. 11-9; Ord. 09-20; Ord. 09-18)

7.12.03. Levy of Assessments.

The Council hereby levies an assessment against the real properties identified in the Assessment List. Said assessments levied upon each parcel of property therein described shall be in the amount set forth in the Assessment List. The assessments are levied upon the parcels of land in the District in accordance with the benefit received from the Improvements.

3. the property price or estimated property price;
4. the cost of funding a reserve fund; and
5. overhead costs not to exceed fifteen percent of the sum of (1) and (2).

(Ord. 11-9; Ord. 09-20; Ord. 09-18)

7.12.05. Method and Rate.

Benefited properties will be assessed per developable acre. The developable acre cost used to calculate the assessment set forth in the Assessment List is as follows:

Improvements	Assessment	Method of Assessment
Drinking water tank and several secondary water facilities, including a reservoir, a series of transmission and distribution lines to various facilities and projects, filtering stations, and improvements to the existing secondary water pond	\$9,076.65*	Per Developable Acre**

* If a property owner prepays his or her assessment in full within twenty-five days after the Assessment Ordinance adopted on September 22, 2009, takes effect, the total assessment to be paid will be \$8,170.84 instead of \$9,076.65, since the City would not be required to fund a reserve fund with respect to that assessment.

** The City has estimated the total number of developable acres to be benefited by the Improvements. The actual number of developable acres may vary somewhat from the City Council's initial estimate.

(Ord. 11-9; Ord. 09-20; Ord. 09-18)

7.12.06. Stacked Unit, Multi-Family Residential Dwellings.

Impact fees for stacked unit, multi-family residential dwelling units shall be computed at 0.5 Equivalent Residential Units (ERUs) per individual dwelling unit in a building.
